Handicraft Club

Introduction

The handicraft club aims at developing students' artistic intelligence through making handicrafts and cultivating students' appreciation about the beauty of hand-made creation. The club is headed by a group of parent volunteers who act as the instructors of different classes. There is a wide range of artistic handicrafts made by the club members, from beaded decorations to paper-folding work, from wall hangings made of Chinese New Year red packets to Christmas wrapping bags. Students do cherish and enjoy the precious learning opportunities via parent-student interaction.
